BOILING WATER

Rheem. Ready when you are.

The Rheem range of boiling water units is designed to provide the best solution to our customers' needs, whether it's in the boardroom, office or commercial kitchen.

We manufacture reliable and sophisticated boiling water solutions backed by over 40 years of market-leading expertise, a reputation for excellence and good old fashioned customer service.

Our commitment to innovative design and function is supported by our own research and development teams working in Australia, New Zealand and around the globe.

We have developed innovative, functional, cost-effective products that also demonstrate our commitment to economic and environmental responsibility.

Design, Form and Function by Rheem

The Lazer range of above bench instant boiling water units is perfect for small businesses through to large commercial operations — with capacities ranging from 3–40 litres in three distinct styles and easy clean white or stainless steel finish options.

Energy Saving by Rheem

Rheem instant boiling water units can reduce energy use by up to 40 per cent. The programmable sleep mode and timer functions will turn off heating energy when you don't need it, which adds up to a significant saving over a normal working week.

Nationwide Service by Rheem

All Rheem products are backed by a nationwide network of experienced sales and service centres, giving you the support you need, when you need it.

**Our passion is to
provide solutions
designed to meet
customer needs
and reduce our
impact on the
environment.**

RHEEM LAZER[®] OFFICE

Stylish and efficient

The Rheem Lazer Office offers simplicity with efficiency.

An attractive asset to any workplace kitchen or boardroom, Rheem Lazer Office is packed with performance features with a modern, sophisticated look. It is available in two stylish finishes — powder coat white and easy clean brushed stainless steel.

Rheem Lazer Office is available in 3 and 5 litre capacities — equating to 20 to 35 cups¹ of ready to use boiling water and 123 cups¹ recovery per hour.

Perfect Fit

Among the features that ensure the Rheem Lazer Office is a perfect fit for the workplace are the stylish look and feel, an integrated tap and protection against running dry. In addition, a wall bracket is supplied for easy installation.

Seven Day Timer

The built-in, seven day timer ensures there is boiling water ready to use when you need it, but saves energy when no one is around. The sleep mode, when activated, automatically shuts down the Lazer Office if it hasn't been used for the programmed set period of time. These features can reduce energy use by up to 40%² over a normal working week.

Extended Warranty

Rheem Lazer Office carries a seven year warranty for tanks and a one year warranty for parts and labour.³

Rheem Lazer[®] Office has an integrated tap, built-in timer and display with an electronic controller that makes operation simple.

RHEEM LAZER[®] ECO

Energy reduction

Cost-effective Boiling Water

Rheem Lazer Eco is a cost-effective boiling water unit designed for a wide range of installations such as the workplace or sports club.

Economic at its Core

It's easy to use with a one-touch button to switch on "Eco Mode" which, when activated, automatically turns the Lazer Eco off after two hours, reducing power consumption.

The indicator light shows red when heating and green when in energy conservation "Eco Mode", so you can see what it's doing at a glance. "Eco Mode" can reduce energy use by up to 40%.²

Easy to Clean

The white powder coat finish is easy to clean and the Lazer Eco comes in 3, 5, and 7.5 litre models delivering up to 50 cups¹ ready to use and up to 123 cups¹ of boiling water an hour.

Automatic safety devices safeguard the unit against boiling dry and it also features automatic calibration of the boiling point for the altitude at which the unit is installed at.

Eco-mode is a unique one button control that gives you boiling water with reduced energy consumption.

RHEEM LAZER® COMMERCIAL

High capacity

For the Busy Workplace

The Rheem Lazer Commercial is a high flow capacity boiling water unit designed for the demands of a commercial kitchen, sports club, busy workplace and more. The Lazer Commercial range has capacities of 7.5, 10, 15, 25, and 40 litres that can deliver from 50–247 cups¹ of boiling water ready to use and 123–241 cups¹ per hour.

Easy Operation

The features offered by the Commercial range of boiling water units include easy care and operation. The user friendly timer and controls are integrated into the fascia (stainless steel or powder coat white), leaving the surfaces smooth for cleaning. The control functions automatically return to your settings in the event of a power cut.

**The Rheem Lazer®
Commercial range
can deliver from
50 to 247 cups of
boiling water ready
to use.**

Energy Efficient, Smart Technology

The seven day timer ensures you have boiling water ready to use and turns the energy off when boiling water is not required. Sleep mode will turn off the system automatically when it has not been used for a set period of time. These features can reduce energy use by up to 40%² over a normal working week.

Extra Features

Automatic safety devices safeguard the unit against boiling dry and it also features automatic calibration of the boiling point for the altitude at which the unit is installed. The high flow tap offers up to 35%⁴ faster filling.
