

A modern kitchen sink with a pull-down faucet, a wooden cutting board, and a vase of greenery. The sink is stainless steel and set in a white countertop. The faucet is a sleek, modern design with a black pull-down spout. The cutting board is made of dark wood and has two knives on it. The background is a white wall with a dark grey cabinet below the sink. A vase of greenery is on the left side of the frame.

CORI  
PULL-DOWN  
SINK MIXERS

**alder**

## ACCREDITATIONS. THE HIGHEST STANDARDS, FROM BEGINNING TO END.

### WELS Scheme

At Alder we are proud of the water and energy efficiency of our products. Our tapware, mixers and showers are tested to determine water efficiency, in line with the requirement for the Australian Standard relevant to the product.

**WELS Standard AS/NZS6400:2005**  
Water efficient product - Rating and labeling.

### WaterMark

Alder products comply with all Watermark requirements and the mandatory certification scheme. This confirms compliance of our products in accordance with:

**Australian Building Codes Board (ABCB)**  
"Procedures for certification of Plumbing and Drainage Products" and the Standards referenced therein.

**License:** WM-002002 Watermark  
AS/NZS 3718 Water supply tapware

**License:** WM-022307 Watermark  
AS/NZS 3662 Performance of showers  
for bathing

### Australian Standards

Alder design and produce all products in accordance with the following standards:

**AS/NZ 3718** - Water supply tapware

**AS 3662** - Performance of showers  
for bathing

**AS 4020** - Products in contact with  
drinking water

**AS/NZS6400:2005** Water efficient product -  
Rating and labelling
